

atria

Light fixture ATRIA is a low profile fixture very suitable mounting into the furniture, especially kitchen units, bathrooms, but it can also be used as a decorative ceiling lights.

Thanks to its low profile design, this fixture can be mounted directly to the wall and can be used as a light for an emergency exits. Light fixture is designed as a surface mounted fixture but it can also be hanged from the ceilings by a cables. Matte diffuser in combination with neutral LEDs results in a daylight color light, if incandescent lightbulb light is preferred, warm while LEDs are recommended.

Benefits of the light fixture Atria

- Low consumption of DT LED LIGHTS guarantees:
 - better energy savings, up to 8-10x against light-bulbs and 1.5-2x against fluorescent lights
 - fast return of investment in case of whole light replacement
- Long life thanks to correct cooling. LEDs lasts at least 50,000 hours thanks to original Czech cooling design of LEDs which means non-stop lights for almost six years!
- Fidelity in color reproduction
 - neutral white, Ra > 85,
 - warm white, Ra > 80,
 - cold white, Ra > 80,
 - cold and warm white combination, Ra > 80.
- Flicker free - doesn't cause eyestrain like some fluorescent lights
- Immediate start - DT LED LIGHTS will achieve full brightness in one second. They are very suitable to spaces, where lights are often turn on and off. Due to their properties, there is no reduction of lifespan in these conditions.
- Low temperature resistant - lights can be used in very low temperature conditions, up to -20 °C (-4 °F).
